With Sally

John says he thinks Christmas is a lot of bosh. But we have caught him looking under the bed twice now, and when we ask him what he is doing he just turns red and mutters oh, he lost his collar button.

The last time, we told him that if he was going to keep his collar buttons under the bed, why didn't he buy a chest of drawers from Metropolitan Appliance company? Anyway, what did he think Santa Claus was, a dummy, to hide presents in such an easy place?

Poor Santa Claus feels like a dummy. We've got our relatives all so mixed up in our mind with lampshades and handkerchiefs that we will probably never get them straight. And every time we look at anyone, it seems to us they are wearing a long white beard and red flannels.

But for random thoughts, don't forget:

That strictly fresh eggs from Robertson's Egg Store make better Tom-and-Jerrys.

That Daly City Nursery has some lovely poinsettias.

That your "Christmas Cheer" is not complete without fine liquors from Gelsi's. (p. s. just ask John, if you don't believe us.)

That a Zenith Recorder from Byrne's Radio Store will make this Christmas remembered for years to come.

That Miriam Grocery has a special on large, ripe olives for your Christmas table.

That Santa Claus can fill his sack for the kiddies to overflow-

Eighty Miles to the Gallon

Development of carburetors which will enable automobiles to go 80 miles on one gallon of gasoline has been predicted by Charles F. Kettering, research director of General Motors.

The Danube river is formed by the junction of three smaller streams in the Black Forest of central Europe.

One of the places in Rome which interests American visitors is the Church of Santa Maria Maggiore whose gilded ceiling designed by Sangallo is covered with the first gold which Columbus brought from the New world.

Why Take A Chance?

One of the quickest ways to acquire a good case of influenza, doctors tell us, is to mingle with crowds. It is no secret that downtown stores and streets are more crowded with Christmas shoppers this year than ever before.

On the other hand, Daly City merchants offer large selections of Christmas gifts of all kinds. The shopper may take his or her time in choosing suitable gifts, unhampered by crowds or harried sales clerks. You can get what you want in Daly City!

Another factor in your Christmas shopping comfort is parking. There is plenty of parking space in front of Daly City stores, traffic congestion is unheard of, and you need have no fear of parking tags if you park properly.

All-in-all, your Christmas shopping problems are minimized when you shop in Daly City, so why take a chance and shop elsewhere?

Baths of Rome

Visitors to Rome may still see in the ruins of the Baths of Diocletian and Caracalla famous examples of the Roman love of bathing. At the Diocletian bath 3,200 persons could bathe at once, while in all the establishments in the city 62,000 could be accommodated at one time.

Big Turkey Awaits Some Whist Player

Some lucky person will win a twelve-pound turkey tonight!

At the benefit whist party sponsored by Our Lady of Perpetual Help church, not only will there be a turkey door prize, but there will also be a cash first prize.

Many other valuable awards will be made, and Mrs. Lorraine Wall, chairman, cordially invites the public to attend. Playing will begin at 8:30 p. m. at Masonic hall.

Swiss Birthrate

The Swiss, with the world's lowest birthrate, may soon become a "vanishing race," latest vital statistics about the nation disclose. Swiss babies born in 1936 were 20,000 fewer than those in 1900, and between those dates the number of births a 1,000 potential mothers slumped from 266 to 131. Should the decline continue, Switzerland's death rate in 1945 will exceed its birth rate.

That Beeson Cleaners wish everyone a Merry Christmas and stand ready to help you with last-minute cleaning problems.

That Santa Claus has "No Time for Comedy"—but if he'll take an hour off to see this hilarious show, he'll climb down chimneys with much more vim.

Flash to Santa: how are the brakes on that sleigh of yours? If your reindeers are getting out of hand, better see Mather Brothers in a hurry and get those brakes fixed.

That towels make nice gifts for anyone—why not pick up a gay package at Family Dry Goods Store?

If your kiddies won't sleep the night before Christmas, they won't. But if you've given them a nice, new soft mattress from the Daly City Mattress, company, you've done your part.

That Dr. Lyons says he can help your aches and pains.

That Goodness! candies are a favorite gift.

That the Hilltop Lodge has a brand new orchestra for holiday fun.

That Geneva Bakery's cakes will make Santa Claus stay for breakfast.

That a waffle iron from Byrne Radio Store will convince Santa he ought to stay all week.

That a luscious, dripping, brown roast turkey is part of Christmas day—and that Milo's Market will have just the kind of a turkey you want.

That the favorite present of most men is fine bottled liquor. Lucca Ravioli company carries a complete line.

That ladies like flowers. For a smart corsage, give Bungalow Nursery a ring.

That you can make an entire salad for only 5c—see Joe's Market ad for this amazing special.

That Fletcher's Furniture store carries an outstanding array of inexpensive gifts.

That Westlake Market can practically save your life with last-minute Christmas cards, tree lights or ornaments.

That fine plum puddings and cranberry sauce are available at Farmers Market.

That Lucca Ravioli has imported button mushrooms at 35c a can.

And that Sally wishes everyone a Very Merry Christmas. p. s. And so does John.

India's Postal Profit

India has the world's cheapest inland letter rates, yet makes a profit on her postal system.

Wild Boars

Most of the Russian wild boars enumerated by game census-takers in America are in Graham county, North Carolina. They were imported by an Englishman who planned a game preserve.

Old Spanish Building

Flat Spanish bricks from the first white man's building in Washington state, erected by the Spanish commander Elias in 1792, may be seen by tourists on the banks of a creek flowing through the Makah Indian reservation.

Men's Trench Coats

A boom in the sale of men's trench coats is due to the "discovery of young men that their girl friends like a uniform," according to the Wholesale Textile association, of London.

Gasoline Taxes

American motorists paid more than $7,000,000,000 in gasoline taxes in 19 years after the first tax of this kind was levied. This is almost as much as the federal government acquires for one year's running expenses.

Portable Heat

A steam radiator which may be carried from room to room has been perfected by a company in Detroit. Weighing 40 pounds and 23 feet in length, the water in it is heated by electricity from a wall socket.

A SHORT STORY - -

Mrs. Smith was in a predicament. Here, on the shortest notice, relatives were coming for the holidays and the chesterfield set looked ready to fall apart. But after ten years of good hard wear, what could one expect?

Well, the budget was rather low, so a new set was out of the question. Then Mrs. Smith phoned us. To make a short story shorter, the relatives were delighted with the nice new chesterfield set displayed in Mrs. Smith's living room. And she slyly kept the secret to herself that it was her old set, reupholstered for only $35.00.

UNIVERSITY GETS EXHIBIT

University of California authorities accept outstanding displays from the Golden Gate International Exposition as a gift from the fifteen oil companies comprising Petroleum Exhibitors, Inc. The model refinery, one of the outstanding displays of the recent World's Fair on Treasure Island, is being explained by A. G. GALBRAITH, president of Petroleum Exhibitors, Inc., who is shown pointing out one of the intricate refining processes to PROF. L. G. UREN, acting dean of the College of Mining. Galbraith was accompanied by W. J. HELD, A. B. TANNER and GEORGE D. GAVIN, directors of Petroleum Exhibitors, Inc., and A. RAY BANKS, manager of the Exhibit, on the occasion of the presentation to the university heads. All of the educational displays of the huge Petroleum Exhibit are to be permanently housed in the College of Mining at Berkeley. Those present at the presentation ceremony were (rear row), left to right, PROF. A. J. CARLSON, associate professor of Petroleum Engineering; A. RAY BANKS. (Front row), left to right, W. J. HELD, PROF. L. G. UREN, A. G. GALBRAITH, A. B. TANNER, GEORGE D. GAVIN.

Dressing Lesson

Left at home to cook his supper while his wife was at the movies, a 28-year-old husband in Prague, Czecho-Slovakia, became so alarmed when the porridge boiled over and filled the kitchen with steam that he rushed to the theater, calling loudly for his mate. The attendants objected to this disturbance of the performance, but the frenzied man threatened them with violence if they interfered. Charged at the police court with disorderly conduct, he was bound over for 12 months.

Western Duck Sickness

Vernon T. Wilson is one hunter who doesn't take his prizes home with him; he sets them free, reveals the American Magazine. Wilson is head of the Bear River Migratory Bird refuge at Brigham, Utah. He scours the marshes for sick ducks, and every year cures thousands of their most deadly disease—western duck sickness. The plague was brought on when irrigation projects took away too much water.

Second Largest Congo

The Congo river is exceeded in size only by the Amazon.

First Interview

The first presidential interview was held when George Washington decided to retire from the presidency. He sent for David C. Claypoole, editor of the Daily Advertiser in Philadelphia. After explaining his plans to Claypoole, he informed him that he had some reflections upon the occasion which he wished to communicate to the people of the United States through the Daily Advertiser. Claypoole was given a copy of the Farewell address, which he published in his paper in the edition of September 19, 1796.

China's Co-operative Societies

More than 3,000 co-operative societies, designed to aid China's prolonged resistance to Japanese invasion, have been organized in Fukien provinces.

Canadian Sport Fishing

Remarkable progress in the development and extension of sport fishing areas in the national parks of Canada is reported by the department of mines and resources, Ottawa, which administers Canada's system of national parks. As a result of biological surveys and subsequent stocking operations in the various lakes and streams, particularly waters once barren of fish, visiting anglers may now enjoy good fishing in many waters where previously there was little or no fishing available. One of the outstanding achievements has been the successful introduction of the speckled trout from its native haunts in eastern Canada into many of the clear, cold waters of the national parks in the Rockies.

Ocean View Club Works For Bus System

Hoping to inaugurate an "across town" municipal bus system in the near future, the Ocean View Improvement club is actively sponsoring an extension of the present Ocean View line.

The proposed line would follow the present route from Sickles avenue and Mission street to Junipero Serra boulevard; from there it would proceed, via Nineteenth avenue and through Golden Gate park, to Twenty-fifth avenue and Lake. This change would enable residents of this entire sector to visit the interesting portions of Golden Gate park and various points in the Presidio district without the long ride now necessary.

The Ocean View Improvement club has already enlisted the cooperation of the Ingleside Home-Owners, the Parkside, Park-Presidio, and Sunset improvement clubs. A joint committee, formed to promote the project, is hard at work on the problem.

"Gone With the Wind"?

Members of congress have been asked to help suppress the moving picture, "Gone With the Wind." The Malcolm Ammidown Woman's Relief corps, of Southbridge, Mass., wrote to senators and representatives urging the film be banned as "an insult to the Grand Army of the Republic."

African Field Hockey

Field hockey's the thing with South African women and they will send a team to England to compete in international matches.

Pulpwood Leads

Pulpwood continues to be the most important forest product in Canada, having a value in 1937 of more than $65,000,000.

First Use of Thimbles

Thimbles are said to have been found at Herculaneum and were used by the Chinese at a very early period. Their invention in Europe is traditionally ascribed to Nicholas van Benschoten of Amsterdam in the Seventeenth century.

Gilding Mirrors

Due to an invention by Professor Charles S. Gibson in England, gilding can now be used to replace silvering in mirrors, producing a beautiful, age-resistant, greenish blue glass.

Radio Announcers' Diction

One of the requirements of the major radio networks is that announcers' diction should be free of all sectional accents.

Tees for Three

At Yonkers, N. Y., a water tower marks the spot where the first golf tee in this country was located. Early niblick fans, however, found the pasture was too hilly for golf and abandoned what might have been America's first golf course after only three holes had been laid out.

Pine-Berry Cocktail has a Tangy Flavor That Adds Lustre to Holiday Menus

By BETTY BARCLAY

A supply of canned unsweetened Hawaiian pineapple juice in your refrigerator during the holidays will insure pleasant drinking for your family as well as friends who drop in to see your Christmas tree.

Because of its affinity for other fruit juices, pineapple juice makes a splendid basis for fruit drinks and punches that will be attractive for service during the holiday season.

Before your Christmas dinner or other holiday dinners serve pine-berry cocktail. It's a tangy blend of canned unsweetened Hawaiian pineapple juice, bottled cranberry cocktail, orange and lemon juices, subtly flavored with spice.

To simplify dinner service, pass pine-berry cocktail from a tray in the living room. Crisp salted potato sticks from a can on the emergency shelf make good nibbling with the cocktails.

Pine-Berry Cocktail

1 cup canned unsweetened Hawaiian pineapple juice
1 cup bottled cranberry juice
½ cup orange juice
1 tablespoon lemon juice
4 whole cloves
1 stick of cinnamon

Combine fruit juices. Add cloves and cinnamon. Cover and chill in the refrigerator for one hour before serving. Strain and serve in cocktail glasses.

Yield: 6 servings.

Little Sir Echo

Chief Park Ranger Perry Brown, of Grand Canyon, Ariz., was assigned to one of the oddest tasks ever given man to perform. It was to rescue an echo. Tourists reported a man crying for help. Brown raced to the scene and found a tourist sitting on a rock below the rim shouting into space.

Javanese in Holland

At Arnhem and its suburbs in Holland visitors may often see nurses from Java or the Dutch East Indies. They care for the children of the wealthy executives of East Indies concerns who have retired to handsome villas in their native Holland.

Synthetic Koroseal

Electric transmission cables coated with a new synthetic called koroseal have been found capable of resisting the destructive ravages of the extremely corrosive gas, ozone, for periods as long as three years. Cables coated with ordinary insulating material are eaten through by ozone in three seconds.

No More Ponies

Karachi, India, municipal corporation has decided to cut off the water supply to the local race course, the only one in Sind which runs a weekly race meeting. "It is purely a gambling concern and has ruined thousands of citizens," says the council.

Secret of Success

Andrew Carnegie, who rose from a bobbin boy in a small mill, earning one dollar a week, to a multi-millionaire, wrote his own epitaph: "Here lies a man who knew how to enlist in his service better men than himself."
